Heel, Elbow, and Skin Protectors

Super Soft Heel Protector

Universally sized heel protector

- Universally sized heel protector designed for treatment and prevention of heel pressure sores
- Open heel design effectively eliminates heel pressure by suspending the heel in the air and also promotes faster healing
- Ultra soft, open weave fabric with pillow style cushioning which minimizes shearing and friction
- Extended height prevents sheets and blankets from contacting the toes
- Reduces risk of plantar flexion (foot drop)
- Easy to apply with adjustable straps for custom fit
- DVT compatible
